## BALL MOUNTS

FLASH ball mounts are the gold standard in quality, ingenuity and functionality. Engineered for fast and easy adjustments with multiple drops and dual hitch ball options, FLASH offers ultimate versatility for any truck and trailer combination. Made from solid steel or aircraft-grade aluminum, FLASH ball mounts are the strongest, most corrosion-resistant ball mounts available. No job is too big or small for our FLASH ball mount line. With a multitude of options, high towing capacities, and smart features, we know that FLASH has the perfect ball mount for you!

When you purchase a FLASH ball mount, you are buying from a company with 75 years of experience engineering and manufacturing the safest, best performing towing products on the market. With FLASH ball mounts, ingenuity and safety come standard.

**Made in the USA** – Each ball mount is designed, engineered and tested in the mountain west.

**Effortless Design** – Quick and easy adjustments make our models easy to install and maintain.

**Built to Last** – FLASH ball mounts provide years of dependable towing and corrosion resistance. Not only will your FLASH ball mount last a lifetime offering you years of trouble-free, dependable towing, the clean lines and polished finish look fantastic.

**Fits any Need** – With a large selection of rises, drops, and dual hitch ball options, we are confident that you will find the right ball mount for all of your towing needs.

## SCALE

### Integrated Scale Ball Mount

Mechanical tongue scale helps you tow safely by balancing your trailer load, improving steering and braking control and reducing trailer sway.

## SECURE

### Adjustable Locking Ball Mount

Built-in locking and adjustment pins provide the best anti-theft system available for ultimate security and peace of mind.

## SILENT

### Silent Tow Ball Mount

Anti-rattle technology eliminates hitch noise for a peaceful, quiet ride and comfortable tow.

## SIMPLE

### E Series E Series HD

Corrosion-resistant aircraft-grade aluminum makes it lightweight, easy to adjust and incredibly strong

## STRONG

### Solid Steel Ball Mount Solid Steel HD Ball Mount

Commercial-grade durability and strength to tow your heaviest loads with confidence for years to come.

# SCALE

## Integrated Scale Ball Mount (ISBM)

The **integrated mechanical scale** ensures repeatable scale accuracy when measuring tongue weight, giving you confidence and peace of mind each time you hook up your trailer.

With a properly balanced load, you can enjoy **improved steering, better braking control and reduced trailer sway.**

**Easy height and ball adjustments** make it the perfect solution for towing multiple trailers.

**Lighter than steel.** The aluminum used in every ISBM gives you unmatched strength and durability. The ISBM easily handles the heaviest of loads, at about half the weight of comparable steel ball mounts. This makes carrying, adjusting, and installing your ISBM easy and comfortable.

**Built to last,** made with aircraft-grade aluminum for years of safe towing.

### ISBM specifications

- 1,000 lb tongue / 10,000 lb trailer weights
- 2" receiver
- 2" & 2-5/16" chrome hitch balls
- Dual Lock Pack (part #86-00-3660) specially designed to fit the ISBM is available and sold separately

## FLASH™ BALL MOUNTS

### ISBM models

48-00-8600	6" drop / 7" rise	\$279.95
48-00-8800	8" drop / 9" rise	\$289.95
48-00-8900	10" drop / 11" rise	\$289.95

# SECURE

## Adjustable Locking Ball Mount (ALBM)

**Easy access, front-facing locks.** Key holes are easy to access on the front of the ball mount, so you don't have to reach up behind your bumper to lock, unlock or make adjustments.

**Fast and easy adjustments.** With adjustable height and dual hitch balls, it is an excellent choice for towing multiple trailers.

**Best anti-theft system available.** Both the locking hitch pin and the adjustment pin are built into the ALBM for ultimate security.

**Corrosion resistant,** making it an excellent choice for boating, coastal regions, or harsh winter environments.

**Tethered dust covers** protect locks by keeping dirt, water and corrosion out of the lock mechanisms ensuring smooth locking and unlocking.

**Lighter than steel.** With unmatched strength and durability, the ALBM easily handles the heaviest of loads, at about half the weight of comparable steel ball mounts. This makes carrying, adjusting, and installing your ALBM easy and comfortable.

**Hand-polished mirror finish.** Looks absolutely fantastic on your truck.

### ALBM options

- 1,000 lb tongue weight
- 10,000 lb trailer weight
- 4", 6", 8", or 10" drops (5", 7", 9", or 11" rise)
- 2" & 2-5/16" hitch balls available in chrome or stainless steel
- 2" or 2-1/2" receiver

# SILENT

## Silent Tow Ball Mount (STBM)

**Eliminates hitch rattle.** The exclusive anti-rattle design uses an internal mechanism to lock the shank in the receiver, and the ball holder to the shank, eliminating hitch noise.

**Fast and easy adjustments.** With adjustable height and dual hitch balls, it is an excellent choice for towing multiple trailers.

**Built to handle the harshest environments.** The aircraft-grade aluminum and stainless steel anti-rattle pin resist corrosion, giving you years of excellent performance.

**Lighter than steel.** The aluminum used in every STBM gives you unmatched strength and durability. The STBM easily handles the heaviest of loads, at about half the weight of comparable steel ball mounts. This makes carrying, adjusting, and installing your STBM easy and comfortable.

**Corrosion resistant,** making it an excellent choice for boating, coastal regions, or harsh winter environments.

**Hand-polished mirror finish.** Looks absolutely fantastic on your truck.
